1. Product and Company Identification

Product identifier: LPS® LST (Aerosol)
Version #: 01
Issue date: 07-18-2014
CAS #: Mixture
Part Number: 01916, C01916
Product use: An industrial penetrant designed to penetrate rust and loosen seized bolts and other equipment damaged by corrosion.
Manufacturer information: LPS Laboratories, a division of Illinois Tool Works
4647 Hugh Howell Rd
Tucker, Georgia 30084
United States
www.lpslabs.com
1-800-241-8334/ 770-243-8800
Chemtrec 1-800-424-9300
Supplier: Not available.

2. Hazards Identification

Emergency overview:
DANGER
Flammable aerosol.

CONTENTS UNDER PRESSURE.
Pressurized container may explode when exposed to heat or flame.

HARMFUL OR FATAL IF SWALLOWED.
Irritating to eyes and skin.

Potential health effects:

Routes of exposure: Eye contact. Skin contact. Inhalation. Ingestion.

Eyes: Avoid contact with eyes. May cause eye irritation.

Skin: Do not get this material in contact with skin.

Inhalation: Avoid breathing dust/fume/gas/mist/vapors/spray. Prolonged inhalation may be harmful.

Ingestion: Exposure by ingestion of an aerosol is unlikely. Harmful if swallowed. Harmful: may cause lung damage if swallowed. May be fatal if swallowed. Do not ingest.

Target organs: Cardiac. Respiratory system.

Signs and symptoms: Symptoms of overexposure may be headache, dizziness, tiredness, nausea and vomiting. Skin irritation. May cause redness and pain.

Potential environmental effects: Ecological injuries are not known or expected under normal use.

4. First Aid Measures

First aid procedures:

Eye contact: Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.

Skin contact: Wash off with soap and water. Get medical attention if irritation develops and persists.
Inhalation
Remove victim to fresh air and keep at rest in a position comfortable for breathing. For breathing difficulties, oxygen may be necessary. Call a physician if symptoms develop or persist.

Ingestion
Call a physician or poison control center immediately. Only induce vomiting at the instruction of medical personnel. Never give anything by mouth to an unconscious person. If vomiting occurs, keep head low so that stomach content doesn’t get into the lungs.

Notes to physician
Provide general supportive measures and treat symptomatically.

General advice
Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Call a POISON CENTER or doctor/physician if you feel unwell.

5. Fire Fighting Measures

Flammable properties
Flammable by WHMIS criteria. Heat may cause the containers to explode. Ruptured cylinders may rocket.

Extinguishing media
Suitable extinguishing media

Unsuitable extinguishing media
Do not use water jet as an extinguisher, as this will spread the fire.

Protection of firefighters
Specific hazards arising from the chemical
Contents under pressure. Pressurized container may explode when exposed to heat or flame. Fire may produce irritating, corrosive and/or toxic gases.

Protective equipment for firefighters
Firefighters should wear full protective clothing including self contained breathing apparatus.

Fire fighting equipment/instructions
Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA. Cool containers exposed to heat with water spray and remove container, if no risk is involved. Containers should be cooled with water to prevent vapor pressure build up.

Specific methods
Cool containers exposed to flames with water until well after the fire is out.

Explosion data
Sensitivity to static discharge
Yes

Sensitivity to mechanical impact
None known.

Hazardous combustion products
May include oxides of carbon.

6. Accidental Release Measures

Personal precautions
Consider initial downwind evacuation for at least 500 meters (1/3 mile). Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Many gases are heavier than air and will spread along ground and collect in low or confined areas (sewers, basements, tanks). Fully encapsulating, vapor protective clothing should be worn for spills and leaks with no fire. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. For personal protection, see section 8 of the MSDS.

Environmental precautions
Prevent further leakage or spillage if safe to do so. Do not contaminate water.

Methods for containment
Eliminate all ignition sources (no smoking, flakes, sparks, or flames in immediate area). Stop leak if you can do so without risk. Move the cylinder to a safe and open area if the leak is irreparable. Many gases are heavier than air and will spread along ground and collect in low or confined areas (sewers, basements, tanks). Use water spray to reduce vapors or divert vapor cloud drift. Keep out of low areas. Prevent entry into waterways, sewer, basements or confined areas.

Methods for cleaning up
Should not be released into the environment. Stop the flow of material, if this is without risk. Isolate area until gas has dispersed. Following product recovery, flush area with water. Scrub the area with detergent and water. Clean up in accordance with all applicable regulations. For waste disposal, see section 13 of the MSDS.

Other information
Clean up in accordance with all applicable regulations.
7. Handling and Storage

Handling

Pressurized container: Do not pierce or burn, even after use. Do not use if spray button is missing or defective. Do not spray on a naked flame or any other incandescent material. Do not smoke while using or until sprayed surface is thoroughly dry. Do not cut, weld, solder, drill, grind, or expose containers to heat, flame, sparks, or other sources of ignition. All equipment used when handling the product must be grounded. Do not re-use empty containers. Do not breathe dust/fume/gas/mist/vapors/spray. Do not get this material in contact with eyes. Do not get this material in contact with skin. Avoid prolonged or repeated contact with skin. Avoid prolonged exposure. Do not get this material on clothing. Do not use in areas without adequate ventilation. Wear positive pressure self-contained breathing apparatus (SCBA). Wear personal protective equipment. Wash thoroughly after handling. Avoid release to the environment.

Storage

Contents under pressure. The pressure in sealed containers can increase under the influence of heat. Do not expose to heat or store at temperatures above 120°F/49°C as can may burst. Do not puncture, incinerate or crush. Do not handle or store near an open flame, heat or other sources of ignition. This material can accumulate static charge which may cause spark and become an ignition source. Prevent electrostatic charge build-up by using common bonding and grounding techniques. Store in a closed container away from incompatible materials. Store in a well-ventilated place. Keep container dry. Store away from incompatible materials (see Section 10 of the MSDS). Keep out of the reach of children. Keep in an area equipped with sprinklers.

Biological limit values

No biological exposure limits noted for the ingredient(s).

Exposure guidelines

Canada - British Columbia OELs: Skin designation

Distillates Petroleum, Hydroteated Light (CAS 64742-47-8) Can be absorbed through the skin.

Engineering controls

Ensure adequate ventilation, especially in confined areas.

Personal protective equipment

Eye/face protection

Wear safety glasses with side shields (or goggles).

Skin protection

Wear suitable protective clothing.

Respiratory protection

In case of insufficient ventilation, wear suitable respiratory equipment.

9. Physical & Chemical Properties

Appearance

Liquid.

Physical state

Gas.

Form

Aerosol.

Color

Clear.

Odor

Vanilla.

Odor threshold

Not available.

pH

Not applicable.

Vapor pressure

< 0.1 mm Hg @ 20°C.

Vapor density

4.7.

Boiling point

383 °F (195 °C).

Melting point/Freezing point

Not established.

Solubility (water)

< 0.1 %.

Specific gravity

0.79 - 0.81 @ 20°C.

Relative density

Not available.

Flash point

174.2 °F (79.0 °C) Tag Closed Cup.

Flammability limits in air, upper, % by volume

Not available.

Flammability limits in air, lower, % by volume

Not available.

Auto-ignition temperature

Not established.

VOC

0 % per US State and Federal Consumer Product Regulations.

Evaporation rate

< 0.7 BuAc.

Viscosity

Not established.

Percent volatile

96 - 99 %.
Partition coefficient (n-octanol/water) > 1

Other data
- Decomposition temperature: Not established
- Flammability (solid, gas): Flammable gas.
- Heat of combustion: > 30 kJ/g

10. Chemical Stability & Reactivity Information
- Chemical stability: Material is stable under normal conditions.
- Conditions to avoid: Avoid temperatures exceeding the flash point. Contact with incompatible materials.
- Incompatible materials: Strong oxidizing agents.
- Hazardous decomposition products: No hazardous decomposition products are known.
- Possibility of hazardous reactions: Hazardous polymerization does not occur.

11. Toxicological Information

</tbody>
</table>

- Acute effects: Based on available data, the classification criteria are not met.
- Sensitization: Based on available data, the classification criteria are not met.
- Local effects: Irritating to eyes and skin. Irritating to respiratory system. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.
- Chronic effects: Prolonged inhalation may be harmful.
- Carcinogenicity: This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.
- Skin corrosion/irritation: Prolonged skin contact may cause temporary irritation.
- Serious eye damage/irritation: Direct contact with eyes may cause temporary irritation.
- Mutagenicity: No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.
- Reproductive effects: Based on available data, the classification criteria are not met.
- Teratogenicity: Not available.
- Symptoms and target organs: Irritating to eyes, respiratory system and skin. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Exposure may cause temporary irritation, redness, or discomfort.
- Synergistic materials: Not available.
12. Ecological Information

Ecotoxicological data

<table>
<thead>
<tr>
<th>Components</th>
<th>Species</th>
<th>Test Results</th>

</tr>
</tbody>
</table>

Ecotoxicity
Ecological injuries are not known or expected under normal use.

Environmental effects
The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Aquatic toxicity
The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Persistence and degradability
Not inherently biodegradable.

Partition coefficient
LPS® LST (Aerosol) > 1

Mobility in environmental media
Readily absorbed into soil. The product is immiscible with water and will spread on the water surface.

Other adverse effects
None known.

13. Disposal Considerations

Disposal instructions
Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Contents under pressure. Do not puncture, incinerate or crush. Do not allow this material to drain into sewers/water supplies. Dispose in accordance with all applicable regulations.

Waste from residues / unused products
Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging
Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied. Do not re-use empty containers.
