1. Product and Company Identification

Product identifier: LPS® 2 (Aerosol)
Version #: 02
Issue date: 09-22-2014
Revision date: 10-25-2014
Supersedes date: 09-22-2014
CAS #: Mixture
Part Number: C30216
Product use: An industrial lubricant designed to displace moisture from equipment, provide heavy-duty lubrication and rust prevention.

Manufacturer information:
LPS Laboratories, a division of Illinois Tool Works, Inc.
4647 Hugh Howell Rd
Tucker, Georgia 30084
United States
www.lpslabs.com
1-800-241-8334/ 770-243-8800
Chemtrec 1-800-424-9300

Supplier:
Not available.

2. Hazards Identification

Emergency overview:
DANGER
CONTENTS UNDER PRESSURE.
Flammable aerosol. Pressurized container may explode when exposed to heat or flame.
Irritating to eyes and skin. Vapors may cause drowsiness and dizziness.

Potential health effects:
Routes of exposure:
- Eye contact. Skin contact. Inhalation. Ingestion.
- Eyes: Contact with eyes may cause irritation. Avoid contact with eyes.
- Skin: May cause skin irritation. Avoid contact with the skin.
- Inhalation: Avoid breathing dust/fume/gas/mist/vapors/spray. Prolonged inhalation may be harmful. May cause irritation of respiratory tract.
- Ingestion: Exposure by ingestion of an aerosol is unlikely. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea. Harmful: may cause lung damage if swallowed. Do not ingest.

Target organs:

Signs and symptoms:
- Causes serious eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Skin irritation. Symptoms may include redness, edema, drying, defatting and cracking of the skin. Drowsiness and dizziness. Narcosis. Decrease in motor functions. Behavioral changes.

Potential environmental effects:
Ecological injuries are not known or expected under normal use.

4. First Aid Measures

First aid procedures

Inhalation
Remove victim to fresh air and keep at rest in a position comfortable for breathing. For breathing difficulties, oxygen may be necessary. Call a physician if symptoms develop or persist.

Skin contact
Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact
Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.

Ingestion
Call a physician or poison control center immediately. Only induce vomiting at the instruction of medical personnel. Never give anything by mouth to an unconscious person. If vomiting occurs, keep head low so that stomach content doesn’t get into the lungs.

Notes to physician
Provide general supportive measures and treat symptomatically.

General advice
Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Call a POISON CENTER or doctor/physician if you feel unwell.

5. Fire Fighting Measures

Flammable properties
Flammable by WHMIS criteria. Heat may cause the containers to explode. Ruptured cylinders may rocket.

Extinguishing media
Suitable extinguishing media

Unsuitable extinguishing media
Do not use water jet as an extinguisher, as this will spread the fire.

Protection of firefighters
Specific hazards arising from the chemical
Contents under pressure. Pressurized container may explode when exposed to heat or flame. Fire may produce irritating, corrosive and/or toxic gases.

Protective equipment for firefighters
Firefighters should wear full protective clothing including self contained breathing apparatus.

Fire fighting equipment/instructions
Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA. Cool containers exposed to heat with water spray and remove container, if no risk is involved. Containers should be cooled with water to prevent vapor pressure build up. For massive fire in cargo area, use unmanned hose holder or monitor nozzles, if possible. If not, withdraw and let fire burn out.

Specific methods
Cool containers exposed to flames with water until well after the fire is out.

Explosion data
Sensitivity to static discharge
Yes

Sensitivity to mechanical impact
None known.

Hazardous combustion products
May include oxides of carbon.

6. Accidental Release Measures

Personal precautions
Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Many gases are heavier than air and will spread along ground and collect in low or confined areas (sewers, basements, tanks). Fully encapsulating, vapor protective clothing should be worn for spills and leaks with no fire. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. For personal protection, see section 8 of the MSDS.

Environmental precautions
Prevent further leakage or spillage if safe to do so. Do not contaminate water.

Methods for containment
Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Stop leak if you can do so without risk. Move the cylinder to a safe and open area if the leak is irreparable. Many gases are heavier than air and will spread along ground and collect in low or confined areas (sewers, basements, tanks). Use water spray to reduce vapors or divert vapor cloud drift. Keep out of low areas. Prevent entry into waterways, sewer, basements or confined areas.

Methods for cleaning up
Should not be released into the environment. Stop the flow of material, if this is without risk. Isolate area until gas has dispersed. Following product recovery, flush area with water. Clean up in accordance with all applicable regulations. For waste disposal, see section 13 of the MSDS.

Other information
Clean up in accordance with all applicable regulations.
7. Handling and Storage

Handling

Pressurized container: Do not pierce or burn, even after use. Do not use if spray button is missing or defective. Do not spray on a naked flame or any other incandescent material. Do not smoke while using or until sprayed surface is thoroughly dry. Do not cut, weld, solder, drill, grind, or expose containers to heat, flame, sparks, or other sources of ignition. All equipment used when handling the product must be grounded. Do not re-use empty containers. Do not breathe dust/fume/gas/mist/vapors/spray. Do not get this material in contact with eyes. Do not get this material in contact with skin. Avoid prolonged or repeated contact with skin. Avoid prolonged exposure. Do not get this material on clothing. Do not use in areas without adequate ventilation. Wear positive pressure self-contained breathing apparatus (SCBA). Wear personal protective equipment. Wash thoroughly after handling. Avoid release to the environment.

Storage

Contents under pressure. The pressure in sealed containers can increase under the influence of heat. Do not puncture, incinerate or crush. Do not handle or store near an open flame, heat or other sources of ignition. This material can accumulate static charge which may cause spark and become an ignition source. Prevent electrostatic charge build-up by using common bonding and grounding techniques. Store in a closed container away from incompatible materials. Store in a well-ventilated place. Keep container dry. Store away from incompatible materials (see Section 10 of the MSDS). Keep out of the reach of children.

**Biological limit values**: No biological exposure limits noted for the ingredient(s).

**Engineering controls**: Ensure adequate ventilation, especially in confined areas.

**Personal protective equipment**
- **Eye/face protection**: Wear safety glasses with side shields (or goggles).
- **Skin protection**: Wear suitable protective clothing.
- **Respiratory protection**: In case of insufficient ventilation, wear suitable respiratory equipment.
- **Hand protection**: Chemical resistant gloves are recommended.

### 9. Physical & Chemical Properties

**Appearance**: Liquid.

**Physical state**: Gas.

**Form**: Aerosol.

**Color**: Brown

**Odor**: Slight petroleum odor, Cherry

**Odor threshold**: Not established

**pH**: Not applicable

**Vapor pressure**: < 0.05 mm Hg @ 20°C (dispensed liquid)

**Vapor density**: 4.7 (air = 1)

**Boiling point**: 383 °F (195 °C) @ 101 kPa

**Melting point/Freezing point**: < -58 °F (< -50 °C)

**Solubility (water)**: < 3 %

**Specific gravity**: 0.82 - 0.86 @ 20°C

**Relative density**: Not available.

**Flash point**: 174.2 °F (79.0 °C) Tag Closed Cup (dispensed liquid)

**Flammability limits in air, upper, % by volume**: 7 %

**Flammability limits in air, lower, % by volume**: 0.6 %

**Auto-ignition temperature**: > 442.4 °F (> 228 °C)

**Evaporation rate**: < 0.1 BuAc

**Viscosity**: < 7 cSt

**Viscosity temperature**: 77 °F (25 °C)

**Percent volatile**: 92 - 95 %

**Partition coefficient (n-octanol/water)**: < 1

**Other data**
- **Decomposition temperature**: Not established
- **Flammability (solid, gas)**: Flammable gas.
10. Chemical Stability & Reactivity Information

Chemical stability
Material is stable under normal conditions.

Conditions to avoid
Avoid temperatures exceeding the flash point. Contact with incompatible materials.

Incompatible materials
Strong oxidizing agents.

Hazardous decomposition products
Carbon oxides.

Possibility of hazardous reactions
Hazardous polymerization does not occur.

11. Toxicological Information

Acute effects
Narcotic effects.

Sensitization
Based on available data, the classification criteria are not met.

Local effects
Irritating to eyes and skin. Irritating to respiratory system. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.

Chronic effects
Prolonged inhalation may be harmful.

Carcinogenicity
This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.

Skin corrosion/irritation
Causes skin irritation.

Serious eye damage/irritation
Causes serious eye irritation.

Mutagenicity
No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Reproductive effects
This product is not expected to cause reproductive or developmental effects.

Teratogenicity
Not available.

Symptoms and target organs
Irritating to eyes, respiratory system and skin. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Exposure may cause temporary irritation, redness, or discomfort. Vapors have a narcotic effect and may cause headache, fatigue, dizziness and nausea.

Synergistic materials
Not available.

12. Ecological Information

Ecotoxicological data
No ecotoxicity data noted for the ingredient(s).

Ecotoxicity
The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Environmental effects
An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

Aquatic toxicity
The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Persistence and degradability
Not inherently biodegradable.

Partition coefficient
LPS® 2 (Aerosol) < 1

Other adverse effects
None known.
13. Disposal Considerations

**Disposal instructions**: Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Contents under pressure. Do not puncture, incinerate or crush. Do not allow this material to drain into sewers/water supplies. Dispose in accordance with all applicable regulations.

**Waste from residues / unused products**: Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

**Contaminated packaging**: Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied. Do not re-use empty containers.

14. Transport Information

**TDG**

- **UN number**: UN1950
- **UN proper shipping name**: Aerosols, flammable
- **Transport hazard class(es)**
  - **Class**: 2.1
  - **Subsidiary risk**: -
  - **Packing group**: Not applicable.
  - **Environmental hazards**: Not available.
  - **Special precautions for user**: Read safety instructions, SDS and emergency procedures before handling.

**IATA**

- **UN number**: UN1950
- **UN proper shipping name**: Aerosols, flammable
- **Transport hazard class(es)**
  - **Class**: 2.1
  - **Subsidiary risk**: -
  - **Label(s)**: 2.1
  - **Packing group**: Not applicable.
  - **Environmental hazards**: No.
  - **ERG Code**: 10L
  - **Special precautions for user**: Read safety instructions, SDS and emergency procedures before handling. Read safety instructions, MSDS and emergency procedures before handling.
  - **Other information**: Allowed.

**IMDG**

- **UN number**: UN1950
- **UN proper shipping name**: AEROSOLS, flammable
- **Transport hazard class(es)**
  - **Class**: 2.1
  - **Subsidiary risk**: -
  - **Label(s)**: 2.1
  - **Packing group**: Not applicable.
  - **Environmental hazards**: No
  - **Marine pollutant**: No
  - **EmS**: Not available.
  - **Special precautions for user**: Read safety instructions, SDS and emergency procedures before handling. Read safety instructions, MSDS and emergency procedures before handling.

**IATA; IMDG; TDG**
15. Regulatory Information

Canadian regulations

This product has been classified in accordance with the hazard criteria of the CPR and the MSDS contains all the information required by the CPR.

WHMIS status

Controlled
