For almost 100 years, machine shop operators have depended on DYKEM® Layout Fluids to scribe sharp, clear, precise lines. When applied, STEEL BLUE® and STEEL RED™ provide a uniform, deep color that prevents glare and dries in minutes.

**STEEL BLUE®**

*Layout Fluid*

The most recognized name in layout fluids for nearly 100 years. You can depend on DYKEM® STEEL BLUE®.

- Toluene-free
- Provides a thin blue film without cracking or chipping
- Dries in minutes
- Prevents glare with a uniform, deep color
- Reduces eye strain

**NET CONTENTS**  |  **DYKEM #**  |  **WEBLINK/SDS**
---|---|---
Aerosol 16 oz | 80000 |  
Felt Tip App. 2 oz. | 80200 |  
Brush-In-Cap 4 oz. | 80300 |  
Brush-In-Cap 8 oz. | 80400 |  
Bottle 930 mL | 80600 |  
1 gal. (3.78 L) | 80700 |  

**STEEL RED™**

*Layout Fluid*

The same trusted formulation as STEEL BLUE®, but in a vibrant red color.

- Toluene-free
- Provides a thin red film without cracking or chipping
- Dries in minutes
- Prevents glare with a uniform, deep color
- Reduces eye strain

**NET CONTENTS**  |  **DYKEM #**  |  **WEBLINK/SDS**
---|---|---
Aerosol 16 oz | 80096 |  
Felt Tip App. 2 oz. | 80296 |  
Brush-In-Cap 4 oz. | 80396 |  
Brush-In-Cap 8 oz. | 80496 |  
Bottle 930 mL | 80696 |  

For additional layout products, please visit the MAIN MENU.
To get the job done right the first time, start and finish with DYKEM® Remover & Prep.

- Prepares metal surfaces for layout fluid application
- Removes layout fluids and other marks from metal surfaces
- Dries in minutes
- Does not contain toluene or chlorinated solvents

**DYKEM® HI-SPOT BLUE**

An intensely blue, soft, uniform paste that spreads easily and evenly to show high spots on bearings.

- Non-drying
- Non-hardening
- Transfers from one surface to another
- Saves valuable time and money in surface scraping work

**NET CONTENTS**

**FOUNTAIN BRUSH & BOTTLE**

DYKEM®'s Fountain Brush & Bottle consists of a soft hair brush with a hollow handle attached to a squeezable bulb. No redipping is required, and it allows for delicate to heavy flow depending on your desired application.

- Soft hair brush
- Squeezable bulb
- 5 oz. nonbreakable polyethylene bottle
- Use on vertical or horizontal surfaces
- Cap will not “freeze” to bottle

DYKEM® Marking Products offers high-quality, high-performance industrial markers to meet your most demanding marking and identification needs.

**BRITE-MARK®**

If you're in need of a paint marker that's reliable for permanently marking a variety of surfaces and substrates, turn to BRITE-MARK.

- General-purpose, permanent paint markers
- Durable, UV-resistant marks available in an array of colors
- Marks dry in 25-35 seconds
- Fine, medium and broad tips sizes available

**TIP SIZE**  |  **COLOR**  |  **DYKEM #**  |  **WEBLINK/SDS**

**BRITE-MARK® ROUGHNECK**

Ultra-durable permanent tip designed to withstand rusty, rough, oily, greasy and demanding job sites.

- Writes longer with more paint than competitive paint makers
- Plastic tip resists fraying and disintegrating when used on rough surfaces
- Tip repels oil and grease and can be wiped clean
- Industrial-grade UV resistant paint withstands harsh outdoor conditions

**STEEL BALL TIP MARKERS**
DYKEM® marking products offer high-quality, high-performance industrial markers to meet your most demanding marking and identification needs.

**DALO® Industrial Steel Tip Paint Marker**
- Steel tip paint marker – Large Barrel holds large capacity of product, minimizing replacement time
- Stainless steel ball tip – no risk of tip wear, even when writing on rough concrete or rusty metal
- Easily writes through oil, grease and water
- Writes at all angles, even upside down
- Paint withstands extreme weather conditions without losing legibility or brightness
- Available in different tip sizes and colors
- Drying time: 25-35 minutes

**MILE MARKER**
Permanent Ink Marker
- Marks for almost 1.4 miles; nearly 12 times the marking power of the leading ink marker.
- Valve action means the marker won’t dry out - if the tip becomes dry just press down to re-wet.
- Fast drying and comes with a reversible tip — ensuring the mark stays strong and crisp!

**UV MARKER**
- Marks on plastic, glass and nonporous surfaces
- Excellent for security applications
- Detectable by UV light
- Drying Time: 45 seconds to 1 minute

**ACTION MARKER® 44**
- Ink writes on smooth surfaces such as glass, aluminum, plastic, rubber and more
- Marks will not smudge or rub off
- Interchangeable and replaceable tips available
- 6 to 8 times the writing life of most other capillary markers of comparable size
- Drying Time: 45 seconds - 1 minute

**NEW LOOK**
**CROSS CHECK™** Torque Seal® Tamper-Proof Indicator Paste

**DYKEM® Cross-Check™ provides a convenient visual method for identification of vibratory loosening or tampering in nuts, bolts, fasteners, and assemblies. Provides warranty protection against tampering. Marks will be easily broken if parts are tampered with or become loose. Highly visible marks. Orange, green, red, yellow and blue fluoresce under black/UV light. Excellent adhesion to metal and other substrates.**

- Tamper Proof Torque Mark
- Safe for most surfaces
- Highly visible
- Excellent adhesion
- Visually detects loose nuts & bolts
- Provides warranty protection
- Orange, green, red, yellow and blue fluoresce under black/UV light.
- Boeing Specification: BMS8-45 Type II

**SAFE-MARK™** Food Contact Surface Marker

- General purpose, quick drying formula ideal for labeling components in food settings
- Ink formulation is NSF category R1 certified making it approved for use on surfaces where food would be in repeated or continuous contact
- Valve-action ensures no ink waste
- Tip is locked into assembly, ensuring it won’t fall out and contaminate the food stream
- Available in 7 colors for easy HACCP integration
- Ideal for use on metal, glass, plastic, cardboard, rubber, shrink film, stretch wrap most other surfaces
- Marks withstand -20°F to 475°F temperature range
- Marks withstand sterilization processes of 250°F at 15 psi for 20 minutes

**TUFF GUY™** General Purpose Marker

- General purpose marker
- Highly resistant to coolants and cutting fluids
- Threaded barrel allows marker to be screwed into a jig or apparatus
- Not a xylene-based formula
- Valve action mechanism prevents ink in barrel from drying when cap is left off
- Drying time: 45 seconds - 1 minute
**HIGH TEMP**

If you make marks that fade away when exposed to high temperatures, then High Temp markers are the answer!

- Marks withstand temperature exposure up to 2000°F (1093°C)
- Permanent identification solution
- Intended for use on room temperature metals. Once cured, marks resist high temperature exposure.

**HIGH PURITY**

If you do a lot of marking on stainless steel, then consider the High Purity marker for your next job.

- Permanent marks will not etch stainless steel
- Certified low-chloride, low-halogen and low-contaminant ink
- Meet Nuclear, GE Energy, GE Aviation and a wide range of industry-accepted specs

**SUDZ-OFF®**
Detergent Removable Marks

Ever need to make a mark, but remove it later? SUDZ-OFF® markers are your solution.

- Make water-resistant marks on untreated, unpainted metal surfaces
- Marks are easily removed with a detergent/cleaner with a pH of 10 or higher
- Will not ghost
- Drying Time: 25-35 seconds

**RINZ OFF®**
Water Removable Marks

RINZ OFF® markers are perfect for temporary writing on non-treated, non-painted metal surfaces which require ink that can be removed with water.

- Ideal for quality control
- Interchangeable and replaceable tips make the pen more practical and long lasting
- Will not ghost
- Drying Time: 25 – 35 seconds

SAFE-MARK

Food Contact Surface Marker

- General purpose, quick drying formula ideal for food processing systems
- All plastic components are comprised of DETEX® metal and X-ray detectable material
- Ink formulation is NSF category R1 certified making it approved for use on surfaces where food would be in repeated or continuous contact
- Valve-action ensures no ink waste
- Marker cap securely screws onto both ends of marker and features DETEX® metal and X-ray detectable plastic
- Aluminum barrel is metal and X-ray detectable
- Tip is locked into assembly, ensuring it won’t fall out and contaminate the food stream
- Available in 7 colors for easy HACCP integration
- Ideal for use on metal, glass, plastic, cardboard, rubber, shrink film, stretch wrap most other surfaces
- Marks withstand -20°F to 475°F temperature range
- Marks withstand sterilization processes of 250°F at 15 psi for 20 minutes

OPAQUE STAINING COLOR
Provide quick identification on a variety of component parts. These stains repel oils as they adhere without flaking and scaling. DYKEM® Staining Colors are easily applied by brushing or spraying and dry quickly to the touch.

- Perform well on light and dark tinted metals
- Provide excellent coverage properties and opacity
- Thickness can be adjusted by adding DYKEM® Remover & Prep
- Fast drying
- Resists cracking, chipping, flaking or scaling
- Will not interfere with moving parts when applied thin

TRANSPARENT STAINING COLOR
These stains have a slightly thinner viscosity than the opaque stains and dry slightly faster.

- Faster drying
- Resists cracking, chipping, flaking or scaling
- Resistant in transmission oil up to 300°F
- Will not interfere with moving parts when applied thin

- Withstands Freezing

---

LPS 2®
Heavy-Duty Lubricant

LPS 2® Heavy-Duty Lubricant is the product if you need to take lubrication up a notch.

- Heavy-duty industrial lubricant and wet-film corrosion protectant
- Great for use on indoor and outdoor equipment

**NET CONTENTS**

- 11 wt. oz./312 g/379 mL: 00216
- 20 fl. oz. (591 mL) Trigger: 00222
- 1 gal. (3.78 L): 02128

**LPS 2® VIDEO**
- Displacing Moisture

---

TKX®
All-Purpose Lubricant

TKX® TKX® is your economical choice for a general-purpose, wet film lubricant when you need exceptional performance at maximum value.

- General-purpose, wet-film industrial lubricant
- Offers great performance at maximum value

**NET CONTENTS**

- 11 wt. oz./312 g/368 mL: 02016
- 20 fl. oz. (591 mL) Trigger: 02022
- 1 gal. (3.78 L): 02028
- 5 gal. (18.93 L): 02005
- 55 gal. (208 L): 02055
HEAVY-DUTY SILICONE LUBRICANT

- Water-based, silicone-rich formula
- Colorless
- Ideal for rubber and plastic surfaces
- Eliminates sticking, binding, and squeaking
- Non-staining
- Safe on most surfaces

Dry Film PTFE Lubricant

- Dry film will not attract dust or dirt
- Provides lubrication
- Excellent for releasing molded parts
- Ideal for high temperature applications up to 500°F (260°C)
- Colorless, thin film
- Petroleum base

Net Contents: 11 wt. oz./312 g/370 mL
LPS #: 02616
SDS #: 02616

MAGNUM

Premium Lubricant with PTFE

- High performance lubricant with PTFE additives
- Ideal for both regular and extreme conditions
- Penetrates and protects metal against rust and corrosion
- Flash point of 175°F (79°C)
- Safe to use on most surfaces

Net Contents: 11 wt. oz./312 g/370 mL

**CHAINMATE®**
Chain & Wire Rope Lubricant

- Fortified with molybdenum disulfide
- Increases the life of chains and wire ropes
- Effective under extreme temperature and pressure ranges
- Deep penetration to the core of wire ropes
- Reduces wear caused by friction and corrosion
- Lubricant and corrosion protectant
- High adhesion
- Use with guards in place to eliminate costly down time

**FORCE 842°®**
Dry Moly Lubricant

- Fortified with molybdenum disulfide
- Provides a quick drying, thin film
- For assembly and break-in lubrication
- Effective under high temperatures - 842°F (450°C) and pressures - 100,000 psi (6890 Bars)
- Resists dust and dirt
- Prevents seizure of parts
- High adhesion
- Water and chemical resistant

**FOODLUBE® CHAIN SPRAY**
- Fully synthetic formula extends chain life, protecting vital assets and lowering maintenance costs
- Exhibits excellent penetration and load carrying properties ensuring that the product lubricates and protects inside rollers, links, pins, etc.
- Provides a water displacing, strong-bonding film with excellent water washout resistance and corrosion protection
- Excellent oxidation stability reduces frequency relubrication interval and saves on lubricant use
- Powerful foaming action penetrates close tolerances of chain bushings and pins
- VOC compliant in all 50 states
- Nonfood Compounds Program Listed
  Category Code: H1 Registration #147490 (Aerosol)

**NICKEL ANTI-SEIZE**

- Prevents seizure up to 2600°F (1427°C)
- Does not contain lead, copper, or graphite
- Protects against seizure, rust, and corrosion
- Chemically inert
- Can be used with ammonia, acetylene, and vinyl monomers which are unstable in the presence of copper
- Strong resistance to water wash off
- Brushable to -18°F (-27°C)
- Will not run, drip, or settle out
- Ideal for use on stainless steel and for joining dissimilar metals
- Silver color
- Acid resistant

COPPER ANTI-SEIZE
- Prevents seizure up to 1800°F (982°C)
- Lead free
- Prevents against seizure, heat-freeze, galling, rust, and corrosion
- Brushes easily
- Highly adhesive on both wet and dry surfaces
- Will not run, drip, or settle out
- Copper color

ALL-PURPOSE ANTI-SEIZE
- Prevents seizure up to 1800°F (982°C)
- Moly fortified
- Lead free
- Prevents against seizure, heat-freeze, galling, rust, and corrosion
- Lowers friction; reduces wrench torque
- Reduces maintenance costs
- Not affected by contraction, expansion, or vibration
- Will not run, drip, or settle out
- Charcoal grey color
LPS® and Spray Nine® brands combined offer a wide range of degreasing and cleaning options in both solvent and water-based formulas.

**PRESOLVE® Orange Degreaser**
- A citrus degreaser that penetrates deep to cut through the toughest grease and grime.

- High performance industrial cleaner that cleans on contact
- Ideal for removing grease, tars, and oils
- Fast acting, deep penetration
- Controlled evaporation
- Flash point above 100°F (38°C)
- Low residue
- Nonfood Compounds Program Listed
- Category Code: C1 Registration
- #129025 (Aerosol); #059830 (Bulk)
- Safe on all metals and most plastics

**OCX™ Citrus Degreaser**
- Economical and effective industrial-strength degreaser that cleans on contact
- Fast acting on grease, oil, and sludge
- Natural based
- Flash point above 100°F (38°C)
- Safe on all metals and most plastics

**G-49™ Orange Degreaser Low VOCs**
- Instant cleaning action
- Excellent for removing grease, grime, oil, and adhesives
- High solvent strength
- Moderate evaporation
- Excellent alternative to Methyl Ethyl Ketone (MEK)
- Ideal for cleaning equipment
- Nonfood Compounds Program Listed
- Category Code: C1 Registration
- #142147 (Aerosol)
EM-CITRO
Emulsion Degreaser
- Heavy-duty, citrus-based, degreaser that quickly removes oil, grease, tar, and grime from metal parts and equipment
- High delivery spray enhances and accelerates soil removal
- Neutral pH with no caustics, acids, chlorinated solvents, alcohols, or ozone depleting solvents
- Safe on most surfaces
- Low foaming, viscous liquid enhances contact time by clinging to the soil and surface
- Nonfood Compounds Program Listed
Category Code: C1 Registration
#138552 (Aerosol); #138551 (Bulk)

NATURAL FORCE®
Foaming Degreaser
- Super concentrated formula
- Heavy duty natural citrus power
- Quickly dissolves grease
- Safer alternative to using harsh solvents
- Non-corrosive
- Attacks grease on contact
- Nonfood Compounds Program Listed
Category Code: C1 Registration
#138199 (Aerosol)

SCRUBS® NATURAL FORCE®
Citrus Degreasing Towels
The strength of a natural citrus solvent with a highly absorbent, abrasive, nonscratching towel for a one-step degreasing solution.
- Provides controlled application
- Safer alternative to using harsh solvents
- Quickly dissolves grease
- Safe for most washable surfaces
- No dripping or overspray
- Rinses with water

**INSTANT SUPER DEGREASER 2.0**

- Non-flammable – can be used on or near energized equipment. This improves safety and reduces downtime associated with de-energizing equipment.
- Non-brominated – improved health and safety profile for increased worker safety and simplified employer compliance.
- Fast(er) Evaporation – quickens clean-up time. Improves productivity and reduces downtime.
- No Rinsing/No Residue – no wiping or rinsing prior to next production step, reduces time and labor.
- Heavy-duty Performance – removes oil, grease, dirt, and tar with less cleaner, saving money.
- Non-conductive – can be used on or near energized equipment, eliminating equipment downtime.
- Power Blast Spray – blasts away dirt, oil, and other residues for quicker cleaning (increased productivity).

**PF® SOLVENT**
- A full-strength, penetrating degreaser that removes grease and oil
- Specially formulated for power utility applications
- Compatible with power cables and components
- Flash point above 140°F (60°C)
- Does not contain chlorinated solvents such as trichloroethylene or perchloroethylene
- Can be used in parts washers, dip tanks, and ultrasonic cleaners
- Safe to use on most surfaces

**PF®-141 IG**
**Industrial Grade Solvent**
- Removes petroleum based oils such as stamping oils, cutting fluids, rust inhibitors, and cable pulling lubricants
- Flash point above 140°F (60°C)
- No ozone depletion potential
- Excellent for use in parts washers
- Will not attack most commercial resins, plastics, urethanes, and synthetic rubbers
- Non-corrosive to metals such as copper, aluminum, magnesium, and stainless steel

**PF®-HP**
**High Performance Solvent**
- Heavy duty, penetrating degreaser that removes grease and oil
- Specially formulated for power utility applications
- Compatible with power cable and power cable components
- Excellent for use in parts washers and dip tanks
- Flash point above 140°F (60°C)
- No ozone depletion potential
### SPRAY NINE®

**PRECISION CLEAN**
Multi-Purpose Cleaner/Degreaser

_An industrial degreaser with the added benefit of inhibiting flash rust._

- Industrial strength formula removes the toughest stains and soils
- Does not contain butyl, chlorinated or petroleum solvents, bleach, ammonia, or abrasives
- Alkaline formula inhibits flash rusting
- Rinses clean
- Safe on all surfaces except magnesium
- Nonfood Compounds Program Listed
  - Category Code: C1
  - Registration #059854 (Bulk)
- Three formulations available: Aerosol, Concentrate, and Ready-to-use

**T-91™**
Non-Solvent Degreaser

_A non-solvent degreaser ideal for traditional solvent cleaning, plastic basin-style parts washers and dip tanks._

- Premium performance cleaning ability
- Zero VOCs: per CARB/OTC/LADCO: 0 g/L, VOC content per SCAQMD: 0 g/L
- Listed in the USDA BioPreferred™ Catalog
- Requires less product than traditional solvents to get the job done
- Nonfood Compounds Program Listed
  - Category Code: A1
  - Registration #141975 (Bulk)
- Moderate foam for effective mechanical cleaning

NOFLASH® 2.0
Electro Contact Cleaner

- Industrial-strength formula for maximum cleaning power.
- Non-flammable/Non-conductive - can be used on or near energized electronic equipment.
- Non-brominated - improved health and safety profile for increased worker safety and simplified employer compliance.
- Fast Evaporating – quickens clean-up time. Improves productivity and reduces downtime.
- No Rinsing/No Residue – no wiping or rinsing prior to next production step, reduces time and labor
- Inverta Spray Valve – allows user to spray in an upright or inverted position for more convenient application.
- Nonfood Compounds Program Listed
  Category Code: K2 Registration #151504

NOFLASH®
Electro Contact Cleaner

- Unique alternative to HCFC cleaners

SAFE-MARK
Food Contact Surface Marker

- General purpose, quick drying formula ideal for food processing systems
- All plastic components are comprised of DETEX® metal and X-ray detectable material
- Ink formulation is NSF category R1 certified making it approved for use on surfaces where food would be in repeated or continuous contact
- Valve-action ensures no ink waste
- Marker cap securely screws onto both ends of marker and features DETEX® metal and X-ray detectable plastic
- Aluminum barrel is metal and X-ray detectable
- Tip is locked into assembly, ensuring it won’t fall out and contaminate the food stream
- Ideal for use on metal, glass, plastic, cardboard, rubber, shrink film, stretch wrap most other surfaces
- Marks withstand -20°F to 475°F temperature range
- Marks withstand sterilization processes of 250°F at 15 psi for 20 minutes

Belt Dressing

- Prevents belt slippage on flat, round, and V-belts
- Eliminates squeaks from slipping belts
- Water resistant
- Extends belt life and pulley bearing life
- Does not deteriorate drive belts
- May be used in wet, outdoor conditions
- Nonfood Compounds Program Listed Category Code: H1 Registration #134508 (Aerosol)
- Acceptable for use in Canadian Food Processing Establishments

Detex™ Empty Trigger Bottle

- Adjustable spray stream to ensure proper application
- Blue color for all metal and X-ray detectable plastic readily identifies it as non-food object
- Ergonomic, 3 finger trigger to reduce finger fatigue
- Durable bottle construction and chemically resistant trigger
- Metal detectable label to eliminate risk of undetected food contamination
- Label area for convenient product identification
ANTI-SPATTER
A must-have product for a quality welding job
- Unique water-based formula that prevents weld spatter from sticking to metal
- Oversized, E-Z Spray Nozzle is ideal when wearing welding gloves
- Does not contain silicone
- Paint compatible
- Eliminates the need for chiseling, grinding, or brushing after welding
- Acceptable for use in Canadian Food Processing Establishments

GRAFFITI & SPRAY
Paint Remover-Jelled

Graffiti & Spray Paint Remover jelled formula is a high quality graffiti remover that will not run off vertical surfaces. This product stays on the surface long enough to emulsify and work harder to remove paint and graffiti without extra clean up.

- Removes paint, lipstick, grease, ball point ink and crayons from a variety of surfaces
- Safe for cleaning metal, porcelain, formica and baked enamel paints
- Jelled aerosol formula will not drip or run

### STAINLESS STEEL CLEANER - Natural Citrus

**Orange™ Natural Citrus Stainless Steel Cleaner** contains a natural citrus solvent combined with detergents and polishing agents to clean and remove grease from stainless surfaces. Provides a protective coating to resist fingerprints and re-soiling.

- Cleans & Polishes
- Restores Original Brightness
- NSF® Registered

**NET CONTENTS**
- 32 oz Quart 34520

### STAINLESS STEEL CLEANER - Oil Based

Cleans, polishes and preserves the high luster of stainless steel. The oil-based formula leaves behind an invisible protective finish on stainless steel surfaces to help resist re-soiling.

- Cleans, polishes and preserves
- NSF® Registered

**NET CONTENTS**
- 20 wt. oz. 20920

### SCRUBS® STAINLESS STEEL Cleaner Towel

**SCRUBS® Stainless Steel Cleaner Towels** clean, polish, brighten and protect all in one step. This powerful formula prevents water marks and corrosion and preserves the high luster of stainless steel. They are ideal for bathrooms, drinking fountains, elevators, kitchens and more.

- Convenient one-step program
- Surface can be polished with clean, dry cloth for higher gloss
- NSF® Registered

**NET CONTENTS**
- 1 Wipe Packet 91901
- 50 Wipe Container 91956
- 30 Towel Container 91930
- 70 Towel Container 91970

### SCRUBS® METAL POLISH Wipes

The patented formula works fast and efficiently to wipe away tarnish and oxidation and bring out the shine.

- Reduces polishing time and labor
- Resealable pack prevents cloths from drying out
- Cleans and leaves protective coating that reduces oxidation

**NET CONTENTS**
- 18 Pack 90218
### Glass & Stainless Steel Cleaner

**Spray Nine Glass & Stainless Steel Cleaner** brings out the sparkling shine in glass, stainless steel and other metal surfaces.

- Fresh Lemon Scent
- Foaming Action
- Contains no harmful Chlorofluorocarbons (CFC’s)

**DO-IT ALL™ Germicidal Cleaner**

- Proven to clean, disinfect and deodorize, **DO-IT ALL™** can be used on most hard, non-porous surfaces to leave them clean and free from odors.
- Safe to use in hospitals, institutions, meat and poultry plants and more.
  - Cleans, disinfects and deodorizes in one step
  - Foam clings to vertical surfaces permitting longer contact time

**SCRUBS® DO-IT ALL™ Germicidal Cleaner Wipes**

- Proven to clean, disinfect and deodorize, **SCRUBS® DO-IT ALL™** can be used on most hard, non-porous surfaces to leave them clean and free from odors.
  - Clean and disinfect hard surfaces
  - Pseudomonacidal, bactericidal, virucidal and tuberculocidal
  - Kills MRSA
  - Fresh lemon scent
  - Bleach and alcohol-free

**MEDAPHENE® PLUS Disinfectant Spray**

- An effective disinfectant for hard surfaces and controls the growth of many disease-causing organisms.
  - Effective disinfectant for hard surfaces
  - Foam clings to vertical surfaces permitting longer contact time
  - Controls growth of many disease-causing organisms
  - EPA registered

**SCRUBS® MEDAPHENE® Disinfectant Deodorizing Wipes**

- These wipes utilize a water based formula which insures surfaces remain wet longer to optimize disinfecting time. The textured wipe works quickly not only to loosen, but also absorb contaminants to ensure a clean and disinfected surface.
  - One-step disinfecting deodorizing solution
  - Portable, safe and easy to use
  - No spraying or run-off

Rustlick™ coolants provide solutions for a wide range of machining, sawing, and grinding demands from general-purpose to specialized formulas. To choose the right coolant for your job, refer to the "Metalworking FLOOD Coolant Selection Guide" section on the next page of this brochure. When you need versatility in flood coolants, choose Rustlick™!

---

**WS-5050**
The versatile flood coolant for dependable performance for all your common uses.
- Multi-purpose, versatile product
- Dependable all-around performance
- Special additives protect neoprene seals
- Recommended for ferrous & most non-ferrous metals
- Not for use with titanium and nickel alloys
- Provides great surface finish with less rework
- Extends tool life and reduces tooling costs

- CNC MACHINE
- SURFACE GRINDER
- DRILL PRESS
- LATHE

---

**ULTRACUT® PRO**
When you prefer a chlorinated water-soluble coolant that’s also ultra-long-lasting and safe for most metals.
- Superior resistance to fungus and bacteria
- Outstanding lubricity and performance; great rust protection
- Recommended for ferrous & most non-ferrous metals
- Maximizes sump life
- Increases part integrity and machining tolerances
- Extends tool life; reduces tooling costs

---

**ULTRACUT® 380R**
When you need a heavy duty, ultra-long-lasting semi-synthetic coolant that’s great for all metals.
- Especially good for high pressure systems
- Prevents rancidity; inhibits microbial growth
- Dependable performance; high lubricity
- No chlorine, sulfur, boron, phenols, nitrites or triazines
- Recommended for all ferrous & non-ferrous metals
- Use in individual sumps or large central systems
- Ultra long-lasting; dramatically increases coolant life
- Keeps machines exceptionally clean
- Enhances workpiece quality and surface finish

Rustlick™ coolants provide solutions for a wide range of machining, sawing, and grinding demands from general-purpose to specialized formulas. To choose the right coolant for your job, refer to the "Metalworking FLOOD Coolant Selection Guide" section on the next page of this brochure. When you need versatility in flood coolants, choose Rustlick™!
### VYTRON-N

**When you need a high-performance synthetic cutting fluid for general-purpose use on ferrous metals.**

- No mineral oil or CFCs
- Non-toxic when diluted
- Recommended for ferrous metals and titanium
- Not recommended for aluminum, brass, bronze or copper
- Keeps tools and machines clean
- No insoluble soap buildup

### POWERSAW

**For those heavier-duty, chlorine-free cutting applications.**

- Specially designed for sawing applications
- Chlorine-free
- Recommended for ferrous metals and titanium
- Not recommended for aluminum, brass, bronze or copper
- Longer blade life; reduces tooling costs
- Faster cutting times boost productivity

### SS-405L

**When you need a semi-synthetic coolant for moderate-duty use with quality performance.**

- Added corrosion protection
- Recommended for cast iron, carbon & tool steels, brass, bronze, & copper
- Limited use on aluminum
- Improves shop cleanliness
- No gummy residue on parts or machines
- Low foaming in high-pressure/high-volume systems

G-25J
When you need a great grinding fluid for Blanchard, surface, centerless & cylindrical applications.
- Economical solution
- Leaves a rust inhibiting protective film
- Recommended for ferrous metals, brass, bronze and copper
- Great heat dissipation
- Prevents in-process rusting

**NET CONTENTS** | **RUSTLICK #** | **WEBLINK/SDS**

G-1066D
The perfect coolant for diamond wheel grinding.
- Residual dry-film corrosion protection
- Recommended for ferrous & most non-ferrous metals
- Not recommended for aluminum
- Will not stain white ceramic
- Reduces wheel loading and chip packing
- Better part finishing and integrity

**NET CONTENTS** | **RUSTLICK #** | **WEBLINK/SDS**

CARBIDE POWERGRIND
The only choice if you are carbide grinding.
- Contains inhibitors to prevent cobalt leaching
- Designed for machining tungsten carbide; works well on other materials
- Prevents carbide damage; increases part integrity and strength
- Minimizes cobalt exposure to improve operator safety

**NET CONTENTS** | **RUSTLICK #** | **WEBLINK/SDS**

### Universal Wheel Skimmer

**Versatile wheel skimmer removes tramp oil.**

**Characteristics**
- Removes 1.5 gallons of tramp oil every hour
- Exclusive bi-directional oil drain
- Durable injection-molded frame
- 120v, single phase, 0.6 amp motor with internal overload
- Use in applications up to 125°F (52°C)

**Benefits**
- Reduces coolant maintenance and machine downtime
- Promotes longer sump life
- Compact design fits most sumps
- Easy to install and operate

**Net Contents**
- **Universal Wheel Skimmer**
- **Rustlick #** 78034
- [Get Info](#)

### Steel Frame Skimmer

**Heavy-duty wheel skimmer removes tramp oil from coolant and washing fluids.**

**Characteristics**
- Chemical and corrosion resistant steel frame and wheel
- Removes 1-2 gallons of tramp oil every hour
- Use in applications up to 125°F (52°C)

**Benefits**
- Extends the life of metalworking fluids
- Decreases machine downtime and fluid care
- Internal motor overload protects against overheating

**Net Contents**
- **Steel Frame Skimmer**
- **Rustlick #** 78012
- [Get Info](#)

### Refractometer

**Quickly and accurately measures coolant concentration.**

**Characteristics**
- Wide measurement range, 0-32 Brix
- Clear-view eyepiece
- Bright, easy-to-read scale
- Portable, no batteries required
- No-slip handle; impact resistant body
- Compatible with all coolant types and brands

**Benefits**
- Quick, accurate readings
- Supports longer coolant life
- Reduces over-all coolant use

**Net Contents**
- **Refractometer**
- **Rustlick #** 78095
- [Get Info](#)

### Drum Mixer/Proportioner

**Sturdy drum mixer/proportioner automatically mixes coolant concentrate with water and dispenses the diluted solution into any container.**

**Characteristics**
- Works with all coolant types and brands
- 15 different color-coded ratio metering inserts
- Guarantees precise coolant concentration
- Faster, easier and safer than mixing by hand
- Saves money by reducing coolant use
- Prevents messy, expensive fluid spills

**Net Contents**
- **Drum Mixer/Proportioner**
- **Rustlick #** 78096

EDM-500

Premium, cosmetic-grade synthetic dielectric fluid for Electric Discharge Machining.

Characteristics:
- High flash point and dielectric strength
- Low viscosity, power factor and acid value
- Resists thermal degradation
- Transparent, fluorescent green formula
- Virtually odorless
- No aromatics

Benefits:
- Reduces coolant maintenance and machine downtime
- Promotes longer sump life
- Compact design fits most sumps
- Easy to install and operate

EDM-250

Superior dielectric fluid for Electric Discharge Machining.

Characteristics:
- Good dielectric strength
- High flash point
- Clear, colorless formula
- Low viscosity and power factor

Benefits:
- Extends fluid life
- Resists electrode wear
- Better surface quality

**TAPMATIC® #1 GOLD**

Cutting Fluid

Number one for a reason, LPS #1 Gold is great for all metals including aluminum.

- Increases tool life and improves surface finish
- Requires less product usage than traditional cutting fluids
- Does not contain chlorinated paraffins
- Reduces cutting torque and improves cutting efficiency
- Does not contain water, solvents, or inactive fillers
- Excellent for tapping applications

**NET CONTENTS** | **LPS #** | **WEBLINK/SDS**

**TAPMATIC® AQUACUT**

Cutting Fluid

If cooling of the tool is required, then TAPMATIC® AQUACUT is your cutting fluid.

- Water-based formula
- Excellent in applications where cooling of the tool is desired
- Non-hazardous
- Does not contain sulfur, chlorine, or oils
- Safe on all metals, except magnesium
- Corrosion inhibitors prevent flash rusting
- Provides fine finishes
- Cinnamon scent

**TAPMATIC® NATURAL**  
Cutting Fluid  
A non-hazardous and non-irritating cutting fluid option safe for all metals.  
- Non-hazardous  
- Does not irritate the skin, eyes, or respiratory tract  
- Does not contain sulfur, chlorine, water, mineral oil, or inactive fillers  
- Great for steel and aluminum  
- High performance lubricating ability eliminates galling and seizing  
- Safe on all metals

**TAPMATIC® TRICUT®**  
Cutting Fluid  
A cutting fluid solution for demanding materials like stainless steel.  
- Excellent for stainless steel and other hard to machine metals  
- Extends tool life  
- Provides smooth, accurate cutting action  
- Flows directly to cutting edge  
- Improves surface finish  
- Reduces friction  
- Suitable for high and low speed applications  
- Non-corrosive to steel  
- Not recommended for aluminum

JUNIOR APPLICATORS

The 1- or 2-pump Junior applicators give you all of the performance of an Accu-Lube MQL system when you don’t need the fixed-setting protection of a boxed applicator. The flexibility of a Junior Applicator combined with the portability of the magnetized mount options give you the perfect applicator system for multiple machine-usage.

PORTABLE NOZZLES

- Manual on/off control
- Magnetic applicator mounting
- 18” Loc-Line nozzle(s), magnetic mounting
- 12’ hose assembly
- 10 oz. reservoir

ADVANTAGE APPLICATOR

Advantage Applicator can easily move with the machinist to service all of his operations.

CHARACTERISTICS

- Comes standard with a 10 oz. lubricant reservoir, 8’ air/lubricant hose and flexible 12” Loc-Line nozzle with magnetic base.
- Now featuring heavy-duty magnetic bases on the applicator and nozzle strong enough to support up to 90 pounds!
- Independent controls regulate air and lubricant flow, providing the operator maximum control
- Versatile and portable design, with an enhanced drip viewing sight glass

BOX APPLICATOR
SAWING SYSTEMS
For more automation and control.
CHARACTERISTICS
■ 110 VAC electronic solenoid on/off control
■ Fixed applicator mounting
■ 12’ hose assembly
■ 10 oz. reservoir

JUNIOR APPLICATOR
SAWING SYSTEMS
CHARACTERISTICS
■ Manual on/off control
■ Fixed applicator mounting
■ 12’ hose assembly
■ 10 oz. reservoir

IN-LINE ATOMIZER
CHARACTERISTICS
■ Transports lubricant without the need for capillary tube
■ Even spray pattern
■ Extends reach of spray by up to 14”
■ Mixes lubricant and air into an atomized spray

**LB 1000**

Premium, heavy-duty minimum quantity lubricant with chlorinated extreme pressure additives.

**CHARACTERISTICS**
- Extra heavy-duty
- Vegetable-based, biodegradable lubricant
- 5% chlorinated EP additives, also available with 10 or 30% EP
- For ferrous & nonferrous metals, including aluminum
- Not recommended for titanium
- Clean before heat treating with soap and water

**APPLICATIONS**
- General machining, sawing and cutting
- Drilling & tapping small holes
- Sawing large diameter solids
- Large diameter tapping
- Broaching & spline rolling

**LB 1100**

Premium, heavy-duty minimum quantity lubricant with non-chlorinated extreme pressure additives.

**CHARACTERISTICS**
- Heavy-duty
- Vegetable-based, biodegradable lubricant
- For ferrous & nonferrous metals, aluminum and titanium
- Water-washable
- Clean before heat treating with rinse water

**APPLICATIONS**
- Heavy-duty machining, sawing and cutting
- Exotic and high nickel alloys
- Aerospace industry
- Large diameter tapping
- Deep hole drilling
- Carbide die stamping
- Sawing large diameter solids
**LB 2000**

*Superior, moderate to heavy-duty minimum quantity lubricant for general-purpose near-dry machining.*

**Characteristics**
- Moderate to heavy-duty
- Vegetable-based, biodegradable lubricant
- For ferrous & nonferrous metals, aluminum and titanium
- Accu-Lube’s #1 product for over twenty years
- Clean before heat treating with soap and water

**Applications**
- General machining, sawing and cutting
- Drilling & tapping small holes
- Sawing large diameter solids
- Large diameter tapping
- Broaching & spline rolling

---

**FG 2000**

*Superior, food-grade minimum quantity lubricant with non-chlorinated anti-wear additives for moderate to heavy-duty near-dry machining.*

**Characteristics**
- Moderate to heavy-duty
- Vegetable-based, biodegradable lubricant
- NSF H1 approved for incidental food contact
- For ferrous & nonferrous metals, aluminum and titanium
- Clean before heat treating with soap and water

**Applications**
- General machining, sawing and cutting
- Food-grade applications
- Medical device manufacturing
- Swiss style CNC machining centers
- Milling, drilling and tapping

---

**Power Stamp III**

*Superior, heavy-duty minimum quantity lubricant with non-chlorinated anti-wear and extreme pressure additives.*

**Characteristics**
- Heavy-duty
- Vegetable-based, biodegradable lubricant
- For ferrous & nonferrous metals, aluminum and titanium
- Water-washable
- Clean before heat treating with rinse water

**Applications**
- Heavy-duty machining, sawing and cutting
- Difficult steel & hardened metal operations
- Large diameter tapping
- Deep hole drilling
- High heat operations
- Sawing large diameter solids
LB 3000

**Economical, moderate-duty minimum quantity lubricant.**

**Characteristics**
- Moderate-duty
- Vegetable-based, biodegradable lubricant
- For ferrous & nonferrous metals, aluminum and titanium
- Clean before heat treating with soap and water

**Applications**
- General machining and sawing
- Replacement for “mist” type lubricant and coolant
- Lumber & wood cutting applications

SYNTHETIC II

**Economical, water-based minimum quantity lubricant with non-chlorinated extreme pressure and boundary additives for moderate-duty near-dry stamping and machining.**

**Characteristics**
- Economical
- Water-based, synthetic lubricant
- Provides excellent corrosion protection
- Boron free with superior lubricity
- For ferrous & nonferrous metals and aluminum
- Clean before heat treating with rinse water

**Applications**
- Stamping
- General machining, sawing and cutting

**For those really tough jobs when you need a heavier-duty lubricant, turn to LB-6000.**

**CHARACTERISTICS**
- Moderate to heavy-duty
- Vegetable-based, biodegradable lubricant
- Non-staining, burns off cleanly in post heat treating
- For ferrous & non-ferrous metals, aluminum and titanium
- Clean with soap and water

**APPLICATIONS**
- Aluminum machining, cutting and sawing
- Moderate-duty milling, drilling, tapping and punching
- Replacing “mist” type lubricant and coolant
- Aluminum applications with post-heat treating
- Thru-tool applications

THERMAPLEX® AQUA Bearing Grease
- Excellent resistance to fresh and salt water
- Resists water washout
- Good adhesion properties
- Excellent corrosion resistance
- Significant load carrying capability
- Reduces wear
- Reduces grease consumption
- Greater degree of bearing protection

PROPERTIES:
Appearance: Amber colored paste
Temperature Range: -4°F (-20°C) to 302°F (150°C)
Dropping Point: 500°F (260°C)
4-Ball Weld Load: >315 kg.

THERMAPLEX® CS MOLY Bearing Grease
LPS® TheraFlex® CS Moly is specially formulated to provide superior performance.
- Extreme-duty industrial grease for heavy loads and impact
- Moly-enhanced formula prolongs bearing life
- Superior rust & corrosion protection, water-resistant

PROPERTIES:
Appearance: Gray/Black colored paste
Temperature Range: 0°F (-18°C) to 425°F (218°C)
Dropping Point: 570°F (300°C)
4-Ball Weld Load: >600 kg.

**THERMAPLEX® HI-TEMP**

Bearing Grease

For use in environments that require exceptionally high temperature resistance, remain stable and resist carbonization.

- Ensures optimal production rates
- Very high dropping point
- Extends relubrication intervals
- Resists carbonization at high temperatures
- Excellent high temperature performance
- Reduces risk of bearing failure at high temperatures

**WHITE LITHIUM**
Grease WITH PTFE

- Rapidly forms into a pure white grease that will not melt or wash away
- Provides maximum lubrication
- Rust and oxidation inhibitors protect metal
- Pure white color allows easy visual inspection
- Heat and water resistant
- Acceptable for use in Canadian Food Processing Establishments

**PROPERTIES:**

- Appearance: White
- Temperature Range: 5°F (-15°C) to 290°F (143°C)

COLD GALVANIZE
Corrosion Inhibitor

The application of a hot-dip in the convenience of an aerosol.

- Zinc-rich galvanized coating - Zinc Purity: 99+%
- Works like a hot-dip on ferrous metals indoors and out
- Withstands water temperature up to 212°F (100°C) and continuous dry heat up to 750°F (400°C)
- Commonly used as a flash rust preventive on welded areas
- Inhibits rust on steel under aggressive conditions
- Flexible coating will not yellow, chalk, crack, or peel
- Electrochemically protects bare metal
- Dries in 3-5 minutes
- Acceptable for use in Canadian Food Processing Establishments

BRIGHTCOAT COLD GALVANIZE
Corrosion Inhibitor

- Shiny zinc coating
- Prevents rust and corrosion on all metals
- Restores hot dip galvanizing
- Dries to touch in 15 to 30 minutes
- Repairs rusted, galvanized, and welded surfaces
- Electrochemically protects bare metal
- Heat resistant, flexible coating
- Will not yellow, chalk, crack, or peel

WAX AND RESIN-BASED
RUSTLICK™ B
A short-term corrosion inhibitor that can be used on wet parts.
- Use for short-term indoor storage; prevents flash rusting
- No cleaning required before painting or plating
- Can be used for sand blasting or vibratory finishing

NET CONTENTS | RUSTLICK # | WEBLINK/SDS

RUSTLICK™ 631
Displace water and moisture while guarding against flash rust.
- Penetrates to displace water and moisture
- Apply by dipping or brushing; do not dilute with water
- Non-conductive and non-flammable
- Guards against flash rusting; leaves a protective thin film
- Easy to clean; reduces surface preparation time
- Long term indoor rust protection, up to two years

RUSTLICK™ 606
Absorb moisture and water while providing 2 years of indoor corrosion protection.
- Absorbs moisture and water
- Convenient spray application
- No chlorinated solvents
- Non-conductive
- Indoor corrosion protection for up to two-years
- Spreads into nooks, crannies, pores and gaps
- Leaves a transparent rust-inhibiting film

FOODLUBE® SUGAR DISSOLVING FLUID
- Rapidly dissolves and removes sugars and fondants from applications commonly found in food and beverage facilities
- Leaves a light, durable lubricating film on the surface to prevent new accumulations of sugar
- Provides short term corrosion protection on exposed metal surfaces
- VOC compliant in all 50 states
- Wide temperature resistance of 41°F – 203°F (5°C – 95°C)
- Nonfood Compounds Program Listed

FOODLUBE® CHAIN SPRAY
Synthetic Lubricant
- Fully synthetic formula extends chain life, protecting vital assets and lowering maintenance costs
- Exhibits excellent penetration and load carrying properties ensuring that the product lubricates and protects inside rollers, links, pins, etc.
- Provides a water displacing, strong-bonding film with excellent water washout resistance and corrosion protection
- Excellent oxidation stability reduces frequency relubrication interval and saves on lubricant use
- Powerful foaming action penetrates close tolerances of chain bushings and pins
- VOC compliant in all 50 states
- Nonfood Compounds Program Listed
  Category Code: H1 Registration
  #147490 (Aerosol)

FOODLUBE® PENETRATING OIL
- Fully synthetic, fast acting penetrant
- Excellent penetration through rust, scale, grease, and general dirt and grime
- Leaves a protective film that provides short term corrosion protection
- PTFE fortified for increased lubricity
- Fast acting formula for quick effective release of seized and corroded threaded fasteners
- Nonfood Compounds Program Listed
  Category Code: H1 Registration
  #147493 (Aerosol); #147494 (Bulk)

FOOD GRADE CHAIN LUBRICANT

- Oily, wet film extends chain life
- Excellent for applications involving incidental food contact on food processing equipment
- Foaming action provides extra penetration and lubrication
- Nonfood Compounds Program Listed
  Category Code: H1 Registration #132899 (Aerosol)
- Acceptable for use in Canadian Food Processing Establishments

FOOD GRADE MACHINE OIL

- Provides excellent lubricity
- Colorless
- Eliminates sticking, binding, and squeaking
- Non-staining
- Penetrates to loosen frozen nuts and bolts
- Safe on most surfaces
- Nonfood Compounds Program Listed
  Category Code: H1 Registration #129000 (Aerosol)
- Acceptable for use in Canadian Food Processing Establishments

FOOD GRADE SILICONE LUBRICANT

- Dry film will not attract dust or dirt
- Provides excellent lubrication
- Ideal for releasing molded parts
- Excellent for high temperature applications up to 500°F (260°C)
- Nonfood Compounds Program Listed
  Category Code: H1 Registration #113815 (Aerosol)
- Acceptable for use in Canadian Food Processing Establishments

HEAVY-DUTY SILICONE LUBRICANT

- Water-based, silicone-rich formula
- Colorless
- Ideal for rubber and plastic surfaces
- Eliminates sticking, binding, and squeaking
- Non-staining
- Safe on most surfaces
- Nonfood Compounds Program Listed
  Category Code: H1 Registration #059820 (Aerosol)
- Acceptable for use in Canadian Food Processing Establishments

**K2 Electronic Cleaner**

- Manufactured for the food industry and safe for use in all plant areas when food is not being processed
- Rapidly evaporates, leaving no residue
- Plastic safe and ideal for cleaning delicate precision mechanisms
- Removes dirt, moisture, and oxides from electronic equipment
- NSF® Registered K2 # 146516
- Metal detectable plastic components - DETEX®

**K2 NF Electronic Cleaner**

- High solvency value for quick penetration and effective cleaning
- Safe to use on most surfaces
- Rapidly evaporates, leaving no residue
- Non-flammable cleaner with high dielectric strength
- NSF® Registered K2 #146517
- Metal detectable plastic components - DETEX®
SAFE-MARK
Food Contact Surface Marker

- NSF approved permanent ink marker (registration no. 140065) for nonfood compounds category R1.
- General purpose, quick drying permanent ink marker, ideal to use on metal, glass, plastic, cardboard, rubber, shrink film, stretch wrap, or just about any surface.
- Marker can be used to identify storage bins, trays, dies and molds, tools, and processing equipment’s.
- Valve action mechanism prevents ink in barrel from drying when the cap is left off.
- Features a threaded barrel that allows the marker cap to be screwed onto the back of the marker barrel preventing it from falling off during use.
- The “bulk” ink version can be used as a stenciling or stamping ink for non-food items.
- Does not contain any reportable amounts of HAP’s (Hazardous Air Pollutants).
- Does not contain any reportable amounts of Xylene.

BELT DRESSING

- Prevents belt slippage on flat, round, and V-belts
- Eliminates squeaks from slipping belts
- Water resistant
- Extends belt life and pulley bearing life
- Does not deteriorate drive belts
- May be used in wet, outdoor conditions
- Nonfood Compounds Program Listed Category Code: H1 Registration #134508 (Aerosol)
- Acceptable for use in Canadian Food Processing Establishments

DETEX™ EMPTY TRIGGER BOTTLE

- Adjustable spray stream to ensure proper application
- Blue color for all metal and X-ray detectable plastic readily identifies it as non-food object
- Ergonomic, 3 finger trigger to reduce finger fatigue
- Durable bottle construction and chemically resistant trigger
- Metal detectable label to eliminate risk of undetected food contamination
- Label area for convenient product identification

**THERMAPLEX® FOODLUBE**

Bearing Grease

- Long life
- Excellent load carrying properties
- Extends relubrication periods
- Prolongs bearing life
- Good corrosion resistance
- Ideal for lubricating all types of bearings
- Reduces grease consumption
- Nonfood Compounds Program Listed

Category Code: H1 Registration #117848

**PROPERTIES:**

- Appearance: White colored paste
- Temperature Range: >0°F (18°C) to 300°F (149°C)
- Dropping Point: >450°F (232°C)
- 4-Ball Weld Load: >250 kg.
- Timken "OK" Load: 40 lbs.

---

**CLEAR PENETRATING GREASE**

- High tack
- Quick penetrating action
- Resists water washout
- Temperature range: 0°F (-18°C) to 400°F (204°C)
- Protects against corrosion
- Nonfood Compounds Program Listed

Category Code: H1 Registration #143804 (Aerosol)

**PACKAGING ICONS**

- **DETEX® - Metal & X-ray detectable plastic components**
- **Oversized E-Z Spray Nozzle**
- **Power Blast Spray: High spray delivery application**
- **Inverta Spray Valve: For hard-to-reach areas, this valve allows you to spray in upright and inverted positions**

**ENVIRONMENTAL ICONS**

- **A product with no VOC (Volatile Organic Compounds) content based on Federal Consumer Product Regulations**
- **A product with VOC content ≤10% based on Federal Consumer Product Regulations**
- **Meets California Air Resources Board (CARB) VOC regulations for consumer products**
- **Meets 2006 Ozone Transport Commission (OTC) model rules for consumer products**
- **No hazardous air pollutants**

**PRODUCT ICONS**

- **NSF® Nonfood Compounds Registration: NSF® is a continuation of the USDA product approval and listing program for chemical products which can be used in food plants**
- **Products that do not contain silicone**
- **Displaces moisture**
- **Acceptable for use in Canadian Food Processing Establishments**
- **Product can withstand low temperatures**
- **Biodegradable contents**
- **Product can withstand high temperatures**
- **No chlorinated solvents**
- **Product can withstand extreme pressures**
- **Non-conductive**
- **Meets NLGI 1.5 & 2 (National Lubricating Grease Institute) standards**
- **Non-flammable**
- **Fast evaporating product**
- **Low toxicity**
- **Product leaves no residue after use**
- **Product is safe to use on plastics**
- **Product has no odor**
- **Biodegradable**
- **Product has very little odor**
- **PTFE (polytetrafluoroethylene): reduces friction, wear, and energy consumption of machinery**
- **Product has very little odor**
- **SAFE: For use through out facility**
- **CAUTION: Exercise caution**
